

## Travel guide to your apartment.

When you enter The Netherlands you probably have a long journey behind you, finding your way from the airport to your apartment can be a bit confusing. This guide will help you to reach your destination as quickly as possible.

When you arrive, you will most likely be at one of the following locations:

- Schiphol airport
- Eindhoven airport
- Rotterdam airport

The final destination will be in the following cities:

- Amsterdam
- Rotterdam
- Delft
- Leiden
- Haarlem
- The Hague
- Tilburg
- Enschede
- Wageningen

We highly recommend downloading the following application:

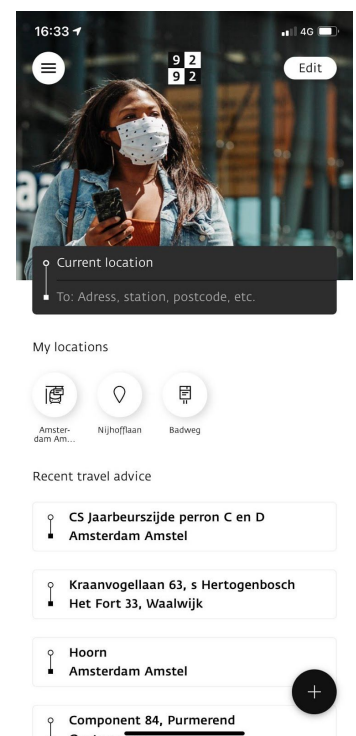

- Apple Store: [9292 app](#)
- Google Play Store: [9292 app](#)

With this app you can easily plan the quickest trip to your apartment with just a few clicks. The screenshots below will guide you through the steps to find the quickest trip.

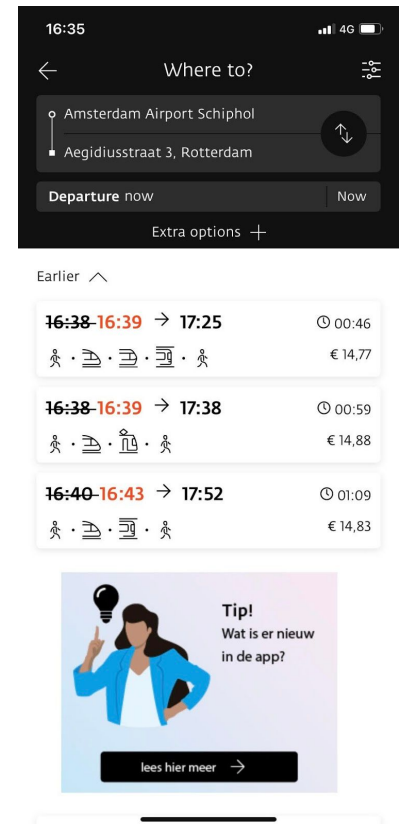

### Step 1: Planning your trip.

when you have opened the app, this will be what you see on your screen. The upper bar will determine where you are via gps when you select “current location”, this is the easiest way when you start on the airport. In the second bar you will have to enter the address of the destination manually, **make sure you enter the address combined with the right city as some addresses apply to different cities in The Netherlands**. When you have entered the right address, the app will provide you with the quickest walking route to the bus/train station from where your trip will start.

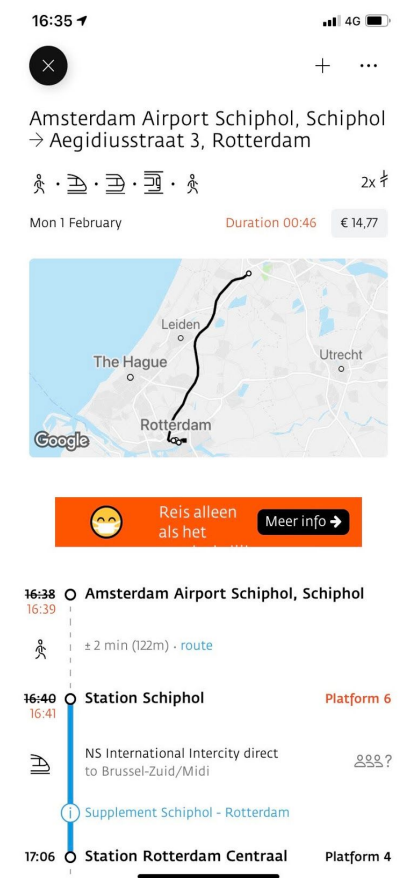

## Step 2: Choosing the best option.

When you have entered the travel information, a list of possible trips is displayed, choose the trip that you would like to take. (we have entered Schiphol airport in the upper bar because current location did not apply for us when we created this guide, please use “current location” when planning your trip).

## Step 3: Traveling.

When you have chosen your trip you will have the whole travel guide in front of you, to not lose your trip while turning off your phone while traveling, we recommend adding your trip to “my travel advices” by tapping the “+” in the upper right corner. if you are not sure if you are at the right place, you can tap on the map that is displayed above the travel advice as shown in the screenshot to the right. In this map you can zoom in and get a detailed view of the location you need to be at.

## Step 4: Reaching your destination

The fourth and final step of your trip to the apartment will be to complete the traveling steps as shown in the app, like the one in the screenshot. When you reach the final bus/train stop, the last part of the trip will most likely be a walking trip of around 2-5 minutes. When you are unsure of where to go, you can tap on the blue word “route” to get a detailed view of the route that you will have to walk to the apartment. And finally you will have reached your destination and be able to enjoy your apartment.
